

SPS-Ello-77
22 December 1977

MEMORANDUM FOR: Director, Data Processing
FROM : [REDACTED]
Chief, Special Projects Staff/ODP
SUBJECT : Special Projects Staff Weekly Report for
Week Ending 23 December 1977

STATINTL

1. SAFE

STATINTL

A. [REDACTED] Report was delivered on
16 December.

STATINTL

B. [REDACTED] attended the DIA briefing of G. Pickett
of the Senate Select Committee Staff. Mr. Pickett advised
us that he expects to ask for more information on inter-
operability/commonality with other systems and changes which
SAFE will introduce in the CIA.

C. A schedule review was held on 21 December of
the SAFE Functional Requirements update activity. Help will
be requested in the Script input and proofreading of the
update material.

D. Work was initiated to introduce DIA requirements
to the DCP contractors. This change will not be introduced
until the Management Plan and Memorandum of Understanding
are approved. The plan will be reviewed the first week in
January.

STATINTL

2. ADSTAR

STATINTL

A. Mr. [REDACTED] met with DDO representatives to discuss
the tasks associated with the Conversion Subsystem.

B. Site requirements for the DDO Interface Systems
were submitted this week.

STATINTL

3. TADS

A. All fact-finding and preliminary work for the negotiation of six additional graphic stations has been completed.

STATINTL B. [REDACTED] has returned from the Mid-Career Course as of 19 December 1977.

STATINTL C. [REDACTED] briefed a staff member from the House Select Committee. The subjects discussed were the TADS requirements, system description, and project management.

D. Six more disk packs for the PDP 11/34 have arrived. [REDACTED]
